

Universal EVoIP Transitions Capability Statement

Universal EVoIP Transitions delivers program management, systems engineering, and cybersecurity governance solutions supporting federal mission systems. We specialize in integrating complex environments while ensuring compliance, performance, and modernization.

KEY DIFFERENTIATORS

- 245,000+ users migrated to IP/cloud
- 30+ years telecom & IT leadership
- Direct DISA PMO support
- Integrated PMO + Engineering + Cyber approach
- Top Secret Cleared Leadership

CASE STUDY HIGHLIGHT

Led large-scale VoIP/cloud modernization enabling migration of over 245,000 users across DoD environments, improving performance, scalability, and operational efficiency.

PAST PERFORMANCE SNAPSHOT

- VoIP & Telecommunications Modernization
- Cloud Migration & Infrastructure Engineering
- Program Management Office (PMO) Support
- Cybersecurity & RMF Compliance

CORE CAPABILITIES

- Program Management & PMO Governance
- Systems Engineering & Integration (VoIP, LAN/WAN, Cloud)
- Cybersecurity & RMF (ATO, NIST, Risk) Telecommunications Engineering
- Cloud & Digital Modernization
- Acquisition & Technical Documentation
- Data Analytics & Performance Metrics

NAICS

541330 | 541512 | 541611 | 541519

Certifications

- SBA 8(a) Certified
- Hubzone Certified
- Small Disadvantaged Business
- 8140 Certified Contract Support
- GSA MAS Schedule
